

# ROAD CYCLEWAYS PETITION

**Left: Getting ready to move my fence over**

**Right: Fence moved**

## Elderly Residents

Nowhere for visitors  
and friends to park  
unless obstructing  
driveways.

Nowhere  
for people  
to park and  
buy plants  
for an  
elderly  
resident

## Mobility Impaired

Trees removed.  
\$1000.00 spent.

Neighbours driveway used so their  
vehicles can park on their property.

Also so their mobility impaired Mother  
can have access to their place.

Note the car parked sideways.

# Neighbours now have to park on their lawn

## Garage Sale

Not many people came to this.

Nowhere for people to park.

Tradespeople/  
Courier drivers/  
Care givers

Nowhere for trades people,  
courier drivers or Care  
givers to park.

Photo on left is of a  
tradesperson parked in the  
cycle lane.

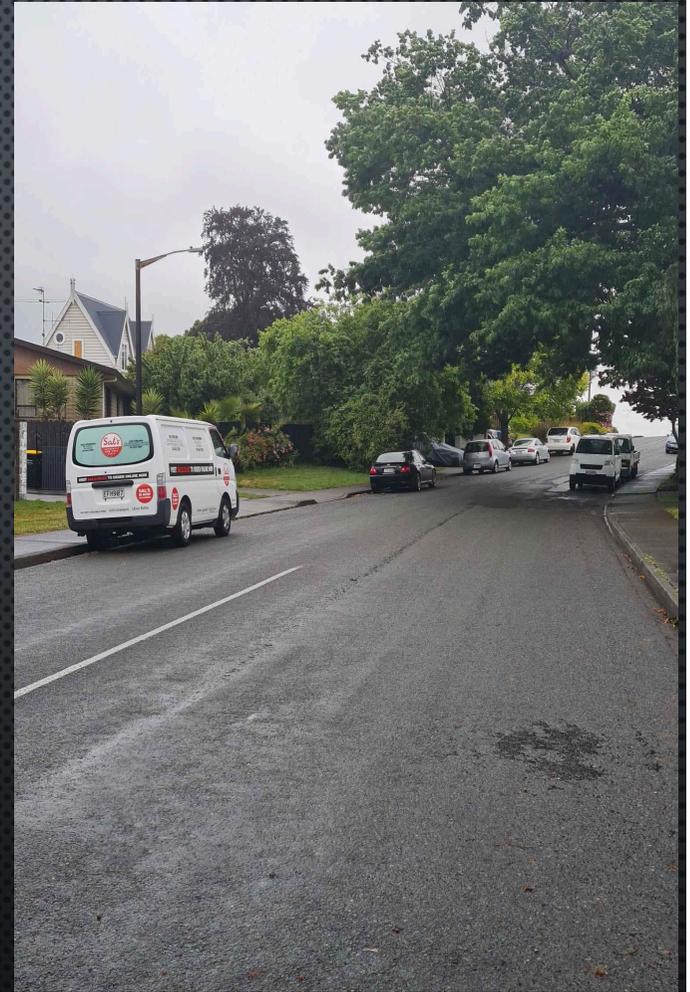

Wilkes Street

## Health & Safety

- Women are vulnerable walking home at night from side streets.
- Hunter Ave often has many parked vehicles. This reduces cars down to one lane.
- Cars are vulnerable to vandalism.

Hunter Ave

## Real Estate

No "on street" parking lowers home values.

If you have an open home, where do potential clients park to view your home?

Where do removal trucks park?

## Businesses are suffering.

- Richmond Antiques and Curios
- Henley Store
- Queen Street Fish Supply shop

Note: An elderly gentleman “parked” at the stop sign near the Henley dairy (so he can go to the dairy).

Henley Store

“Bring back angle parking.  
There are only 5 parks here now”.

Queen Street Fish Supply

“People will not stop here anymore because of the  
current parking situation”.

Richmond Antiques and Curios

“We will be out of business within a year or two”.

### Queen Street

Bikes are still biking on the footpath

Not enough bikes on Queen Street to warrant cycle lanes.

### Champion Road

**Paper petition = 135 signatures**

**Online petition = 709 signatures**

**Total signatures = 844 signatures**

## Queen Street Residents

Every household we went to on Queen Street signed the petition apart from 5 households.

## We would like:

Future cycle lanes halted until further public consultation is given.

Put pamphlets in residents letterboxes regarding holding a meeting to discuss this.

Reverse "temporary" cycle lanes so we have on street parking.

Put pamphlets in residents letterboxes regarding holding a meeting to discuss this.

As a compromise...

Take 1 cycle lane out on one side of the road.

# Halt Future Cycle Lanes and Reverse Existing Ones in Richmond, Tasman

## Why this petition matters

As a resident of Queen Street, I am personally affected by the recent installation of cycle lanes in our area. This is not just my story but also that of my neighbours and local businesses on Queen Street. We believe that these changes were implemented without adequate public consultation or consideration for the residents and businesses directly impacted.

The introduction of these cycle lanes has resulted in reduced parking spaces and has negatively impacted local businesses who rely heavily on street parking for their customers.

We are calling upon the Tasman District Council (TDC) to halt all future plans for additional cycle lanes within Richmond until there is sufficient public consultation. Furthermore, we urge the TDC to reverse the existing cycle lanes on Queen Street and Champion Road.

This petition is not against cyclists or promoting cycling as an eco-friendly mode of transport; rather it's about ensuring that decisions affecting our community are made with full transparency and input from those directly affected.

We need your support! Please sign this petition today! Let's ensure that any future urban planning decisions are made with proper consultation with all stakeholders involved.

**Halt Future Cycle Lanes and Reverse Existing Ones in Richmond, Tasman**

Wendy Hill Aotea PI

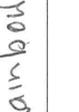

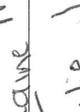

As a resident of Richmond, I am personally affected by the recent installation of cycle lanes in our area. This is not just my story but also that of neighbours and local businesses on Queen Street. We believe that these changes were implemented without adequate public consultation or consideration for the residents and businesses directly impacted.

The introduction of these cycle lanes has resulted in reduced parking spaces and has negatively impacted local businesses who rely heavily on street parking for their customers.

We are calling upon the Tasman District Council (TDC) to halt all future plans for additional cycle lanes within Richmond until there is sufficient public consultation i.e. a public meeting. Furthermore, we urge the TDC to reverse the existing cycle lanes on Queen Street and Champion Road.

This petition is not against cyclists or promoting cycling as an eco-friendly mode of transport; rather it's about ensuring that decisions affecting our community are made with full transparency and input from those directly affected.

We need your support! Please sign this petition today! Let's ensure that any future urban planning decisions are made with proper consultation with all stakeholders involved.

NAME	ADDRESS	CONTACT EMAIL/PHONE	SIGNATURE	COMMENT
Linda Langford	1103 Queen St	lindalangfordnz@gmail.com		Okay for one lane of for PPI to be allowed. cycles both ways.
Linda Rambow	220 Hill St, Richmond	sevencolours22@gmail.com		Over kill. How about a shared footpath.
Vaughan Rambow	" " "	" " "		Have cyclist but this is over kill.
Soreane Murdoch	99 Queen St	murder@murdoch.com		NO consultation
Julie Justy	20 Aotea Road Rd.	0273350400		Ridiculous!

# Ban the Box (Planter Boxes - Mapua Streets for People Project

They look terrible , they are in the way every where, Abe the confuse the street so completely unsafe .. they don't really have a purpose ..

Deanna douglas, Tasman (2024-02-05)

---

These planter boxes are a complete eyesore and are a health and safety hazard. They are totally unnecessary and need to go.

Matt Stringer, Mapua (2024-02-05)

---

They are an eye sore and they are a waste of money.

Graham Lizzie, Mapua (2024-02-07)

---

The boxes are unsightly, reduce amenity, are a hazard to all users, pedestrians, cyclists and motorists.

Michael Crehan, Mapua (2024-02-11)

---

They are just a giant hazard.

Sharyn Mehlhopt, Mapua (2024-02-11)

---

I agree with all of the above reasons. They are a hazard and an obstruction. There are other areas of the community that they could be usefully placed and appreciated but not on the road making life hazardous for cyclists, cars and pedestrians.
